SUMMARY

Dynamic Full Stack Developer with foundational skills in HTML, CSS, Tailwind, Node.js, Docker, React, and Git. Eager to contribute to innovative projects, leveraging excellent communication and design skills. Seeking a Full Stack Developer role to drive seamless web solutions through a strong understanding of both frontend and backend technologies.

EXPERIENCE

- Developed a dynamic weather application using React and Nextjs, fetching real-time data from a weather API to display accurate forecasts.
- Integrated ListenBrainz APIs to retrieve real-time music listening status
- Using coverarchive.org to fetch the album art
- Enabling accurate and dynamic updates within the application ecosystem.
- Reusable components that can be used other projects too

EDUCATION

Bachelor's in Computer Science

Minor in Mathematics • University of North Bengal • Siliguri, West Bengal • 2024 • 2.98

High School Graduate

St James School, Binnaguri • Binnaguri, West Bengal • 2021

SKILLS

Tailwind CSS, Node.js, Express.js, NestJS, TypeScript, Python, JavaScript, React

CERTIFICATIONS

The Web Developer Bootcamp

Udemy • 2025

PROJECT

Weather App

github.com/4nubhav-v/weatherapp • January 2026 - Present

- Developed a dynamic weather application using React and Nextjs, fetching real-time data from a weather API to display accurate forecasts.
- Responsive UI design with Tailwind CSS, ensuring optimal display across various devices and screen sizes.
- Data Fetching and working with APIs
- No Hardcoded components and every components is made without third party UI tools

Music Status Widget

github.com/4nubhav-v/musicStatsApi • May 2025 - October 2025

- Integrated ListenBrainz APIs to retrieve real-time music listening status
 - Using coverarchive.org to fetch the album art
 - Enabling accurate and dynamic updates within the application ecosystem.
 - Reusable components that can be used in other projects too, promoting code modularity and accelerating future development cycles.
-
